

The frAGILE Playbook (One Page Edition)

Welcome to frAGILE(TM) -- the framework built for maximum ceremony and minimal delivery.

Core Values:

- Individuals and interactions over results and accountability
- Comprehensive documentation over working software
- Responding to change over delivering anything concrete
- Following the roadmap -- unless a stakeholder sneezes

Key Ceremonies:

- Sprint Zero: Align forever, deliver never
- Retrograde: Look back, forget forward
- Biweekly Panic Alignment: 20 people, 1 deck, no direction
- Jira-Therapy: Log stories. Feel heard. Never resolve

Team Roles:

- CAO (Chief Alignment Officer): Talks a lot, does very little
- Scrum Grandmaster: Speaks in rituals, wears robes
- VP of Gantt Charts: Waterfall disguised as a Kanban board
- Agile Whisperer: Empowers ambiguity

MVP Philosophy:

Build. Pivot. Demo. Re-demo. Rename. Repeat.

If you're still lost, you're doing it right.
